

Iowa State vs. Nebraska Quotes

Iowa State Defensive Back Kennard Banks

“We need to work on everything. We didn’t come out with the right mind set and get this win like we are supposed to, so I think we just need to work on everything and I think that will make us an all around better team.”

“This whole football thing is a lot of ups and downs and a lot of roller coasters. You’re going to win some and lose some. We just come in here with a positive mind set and just try to pick each other up when we’re down. That’s the main thing.”

Iowa State Defensive End Kurtis Taylor

“We stress playing four quarters, that’s our job is to go out there and play everytime we get the opportunity to and our coaches do a good job of stressing to us to go out there and play no matter what the score is.”

“It’s frustrating we work hard and this definitely isn’t what we work for. It’s not what we expect. It just so happens that it is what it is right now and we’re not going to hang our heads and go in the tank.”

Iowa State Punter Michael Brandtner

“It’s difficult because even though it doesn’t feel like it, the wind is blowing through the stadium pretty strong. You can tell even by the Nebraska kickoff.”

“Kicking into the wind is something that all kickers struggle with and you can do your best to get better with it, but kicking without it is 10 times better.”

Iowa State Quarterback Austen Arnaud

“Two weeks in a row now we’ve had opportunities and we just have to capitalize on the opportunities given to us.”

“I think the coaches are doing the right thing, it’s just that we as the offense have got to be able to run the football a little bit better. Today we had a couple issues with protection, and me not throwing the ball in the right place. I did that a couple times and I think it’s a combined effort but it’s a loss that really hurts.”

Iowa State Defensive Back Leonard Johnson

“We are having a tough time right now, but everyone is hanging in there. No one is giving up.”

“As a team, as long as each person gets better at their job, then things will start happening to help the team.”
